# User Manual

Thank you for purchasing the August MR230 Bluetooth Audio Receiver. This user manual is designed to familiarise you with all the features of this device. Please take the time to read this user manual carefully, even if you are already familiar with a similar product.

## Safety

To ensure the safety of you and others, please read the Safety Instructions before using this device. Please do not disassemble the product, it can be unsafe and will invalidate the manufacturer's warranty.

## Disposal

Please ensure the product and accessories are disposed of in compliance with the WEEE (Waste Electrical and Electronic Equipment) Directive and any other regulations applicable to your country. Always check with the environment agency and any other relevant authorities for current disposal regulations.

## Declaration of Conformity

The Declaration of Conformity can be found on our website at <http://augustint.com/en/declaration/>

## Customer Service

You can contact us by phone on: +44 (0)845 250 0586 or by email at: [service@augustint.com](mailto:service@augustint.com) should you require further technical support or customer service.

## 1. Safety Instructions

- 1) Do not use this device near water.
- 2) Clean only with a dry cloth. Switch this product off before cleaning.
- 3) Do not install near any heat sources such as stoves or other apparatus that produce heat.
- 4) Only use the accessories supplied by the manufacturer.
- 5) Do not open the device, as this will invalidate the warranty.

## 2. Main Features

- Links Bluetooth Device with Speakers
- Standard 3.5mm Audio-out Socket
- Built-in Rechargeable Battery
- Distance: up to 10m (Class II)
- Bluetooth v4.2 (Backwards Compatible)

## 3. Box Contents

- 1) Bluetooth Audio Receiver
- 2) USB Power Cable
- 3) 3.5mm Audio Cable
- 4) 3.5mm to 2xRCA Audio Cable
- 5) Lanyard
- 6) User Manual

## 4. Part Names & Functions

- 1) Multi-Function Button
- 2) Status LED
- 3) Power Switch
- 4) Aux-Out
- 5) Power Socket

## 5. Operation

### 5.1 Receive Audio

- 1) Switch the MR230 to ON. The MR230 will enter reconnection mode and will connect automatically to any previous known device. If no known device is available, the MR230 will automatically enter pairing mode after 4 seconds and the status LED will flash red and blue alternately.
- 2) Enable Bluetooth on the source device
- 3) Scan for Bluetooth devices on your source device. Select MR230 to connect to it.

Once successfully paired, the status LED will light blue constantly.

- 4) To pair to a new device, press and hold the multi-function button for 4 seconds to switch the MR230 into pairing mode again. This can be done either when a device is already connected to the MR230 or when the receiver is in reconnection mode. In pairing mode, the status LED will flash red and blue alternately.

**Note:** When the source device is switched off, the MR230 will enter reconnection mode. The LED will flash blue twice a second and you will be able to reconnect to any previous paired device. For Android source devices, the MR230 will reconnect automatically, for all other devices select the MR230 from their Bluetooth device list.

For PC connections, Windows XP and Windows Vista require third party software to connect to Bluetooth speakers. If you are using a later version of Windows and the MR230 is not outputting audio, please check that the drivers for your PCs Bluetooth module are up to date and that the Audio Output source is set to the MR230.

### 5.2 Multi-Function Button

Whilst connected to a device, press the multi-function button to mute or unmute the music.

When connected to a device or in reconnection mode, press and hold the multi-function button for 4 seconds to reset the connection and enter pairing mode again. The status LED will therefore flash twice every second red and blue alternatively and you will be able to connect the MR230 to another new device.

### 5.3 Resetting the receiver

To reset the device and delete all previously known devices, press and hold the multifunction button for 10 seconds. Once reset, the MR230 will re-enter pairing mode and the status LED will flash red and blue alternately.

## 6. Charging

Connect the MR230 to a powered USB port using the provided USB charging cable.

While charging, the status LED will light red and go off once the battery is fully charged.

A full charge takes approximatively 1.5 hours depending on power input.

## 7. Specifications

|                   |                                 |

## 9. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

This warranty is subject to the following conditions:

- The warranty is only valid within the country where the product is purchased.
- The product must be correctly installed and operated in accordance to the instructions given in this user manual.
- The product must be used solely for domestic purposes.
- The warranty only covers the main unit, and does not cover the accessories.
- The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexpert repairs. The manufacturer disclaims any liability for incidental or consequential damages.
- Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.

- Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.
